Brasch Barry General Contractors, Inc.
901 Lampton Street
Louisville, KY 40204

Congratulations on Brasch Barry General Contractors, Inc. attaining S.T.E.P. Gold. The Safety Training and Evaluation Process (STEP) serves as a valuable tool for ABC members to consistently build upon their safety training programs and gain recognition for their outstanding efforts.

With your commitment to safety, and by achieving the Gold, you are now qualified to apply for the Accredited Quality Contractor (AQC) program. The AQC program is one of the top business development tools available only to ABC members. The AQC program is an effective tool used by many contractors to help them recruit and retain employees, secure bids and be recognized for their corporate citizenship and outreach activities in the community. All of this serves to strengthen the image of the ABC member, the association and merit shop construction.

ABC has promoted AQC contractors through advertising in publications and exhibits at key trade shows such as the ABC National Meetings, American Institute of Architects (AIA), Design Build Institute (DBIA), Building Owner's and Managers Association (BOMA), Construction Specifications Institute and the Construction Users Roundtable (CURT) and Construction Executive.

For more information on the AQC program, please visit www.abc.org/aqc, or contact me at bentley@abc.org, or 703-812-2061.

Sincerely,

Dave Bentley
Member Services Programs Manager
ABC National
